

MiniHeat

Hot Plate

Hot plate, controlled by microprocessor.

- Reduced Dimensions.
- Appropriate for all kinds of laboratories.
- Adjustable temperature, controlled by microprocessor.
- LED's display with indication of the selected temperature.
- Selection among 4 levels.
- Membrane push-button control.
- Plate made of polished aluminium.

Hot Plates

Technical Specifications:

Model	MNH400E
Reference	10000-01040
Heating	
Heating power (W)	250
T ^a range (°C)	100-400
Resolution (°C)	4 levels: 100-200-300-400
General Data	
Plate material	Polished Aluminium
Plate dimensions (mm)	100x100
Dimensions (mm)	115x215x90
Weight (kg)	1,0
Protection IP	IP32
